## COMPARE AND CONTRAST THE ROLE OF BOOKS IN THE IMAGES

Look at the images and analyse how books are presented in different ways. Consider the following aspects:

1. Function of Books – How are books being used in each image? (For studying, creativity, storytelling, decoration, etc.)
2. Interaction with Books – Are people reading, studying, or using books in a different way?
3. Traditional vs. Modern – Do the images show books in a traditional sense (physical books) or in a modern way (digital, storytelling, multimedia)?
4. Environment – Where are books being used? (Library, outdoor space, digital media setting, etc.)
5. Symbolism – What do books represent in each image? (Knowledge, fantasy, learning, history, etc.)
