

Currency Power Meter Indicator for MetaTrader 4 Download - Free - [trading finder]

The **Currency Power Meter indicator** is one of **MetaTrader 4's indicators** that determines the relative **strength of currencies**.

This indicator calculates the percentage difference between the closing price of each day's candle and the previous day's, thus indicating the strength of that currency.

For instance, if the strength of the **EUR** is 0.25% and the strength of the **USD** is 0.12% in the daily timeframe since the **EUR** is more potent than the **USD**, you can look for **buying opportunities** or **signals** in the **EURUSD** pair in the **daily** or **4-hour** timeframe.
