

In many countries, the roles of men and women doing household chores are changing.

Take Josep as an example. He lives in Spain. Now his wife works, so Josep (do) more household chores than before. His wife, Maria, used to do all the cleaning, mopping, sweeping, washing, and ironing clothes as well as dusting. However, now Josep (wash) and (iron) the clothes. At the weekend, he (help) out in the kitchen as well. He (clean) the sink, stove, and (wash) the dishes. Josep doesn't (clean) the floors. When Maria has free time, she (vacuum) and mops the floors as well as (make) the beds. She (fix) things around the house too.
