Opening Gaps + Breaker (ICT) Indicator for MetaTrader 4 Download - Free

The **Opening Gaps + Breaker** indicator is a **practical tool** among **MetaTrader 4 indicators**. This indicator identifies **daily gap areas** that act as **support** and **resistance levels**, helping traders spot potential **trend reversal zones**.

It highlights **support gaps** in **green** and **resistance gaps** in **red**. If the **price breaks** through any of these areas and forms a **Breaker Block** (where a **support zone** turns into **resistance** or vice versa), the color of that zone changes to **blue**.

Opening Gaps + Breaker Indicator Specifications

The table below summarizes the specifications of the **Opening Gaps + Breaker Block** indicator:

Category	ICT - Liquidity - Smart Money
Platform	MetaTrader 4
Skill Level	Advanced
Indicator Type	Continuation - Reversal
Timeframe	Multi-Timeframe
Trading Style	Intraday Trading
Market	Cryptocurrency - Forex - Stocks - Commodities

Indicator in Bullish Trend

The indicator identifies a **gap** in the **GBP/CHF** pair and initially highlights it in **red**, indicating a **resistance zone**.

Once the price **breaks through** this resistance and **stabilizes above it**, the area transforms into a **Breaker Block**, now acting as a **support zone**.

Indicator in Bearish Trend

When a **Breaker Block** is not formed, **gap zones** alone can act as **price barriers**. In the example of the **AUD/JPY** pair, after the gap forms, the price undergoes a **short correction** before returning to the area, where it is **rejected**, preventing further upward movement.

Analyzing the Opening Gaps + Breaker Indicator in a Bearish Trend on MetaTrader 4

Opening Gaps + Breaker Indicator Settings
