Chicken Run Mel Gibson ★★★★★ Chicken Run is one of my all-time favourite animated films. The characters in the film are made of modelling clay. The film is really, really funny. It tells the story of some chickens on a chicken farm. They decide to escape from the farm. First they want to learn to fly, but they can't. Then they meet Rocky, he is a pilot. They build a flying machine together. My favourite character is Rocky. He's really cool, and he's funny too. Mel Gibson is Rocky's voice, he's brilliant. Don't miss this film!		What kind of film is it? What's special about this film? What's the film about? What happens in the film? What does the writer say about the actors? What's the opinion?
