TA12. U8. Wildlife conservation. Speaking + Writing

Choose the best arrangement of utterances or sentences to make a meaningful exchange in each of the following questions.

1.

a. What are some of the key challenges in wildlife conservation today?
b. One of the biggest issues is habitat destruction, caused by deforestation and urbanization.
c. How can local communities contribute to wildlife protection efforts?
d. It's essential for them to work with conservationists and participate in initiatives that promote sustainable land use.
A. a – b – d – c
B. b – a – d – c
C. a – c – b – d
D. d – a – c – b

2.

Dear Sir/Madam,
a. I am writing to express my concern about the alarming rate at which animal species are becoming endangered.
b. It is crucial that we increase funding for conservation efforts to protect vulnerable species.
c. Furthermore, educating the public about the importance of biodiversity will ensure long-term commitment to conservation.
d. I propose that more resources be allocated to the creation of protected areas and wildlife reserves.
e. I look forward to seeing positive changes in the approach to wildlife conservation in the near future.
Yours sincerely,
A. a – b – d – c – e
B. a – b – c – d – e
C. b – a – d – e – c
D. a – c – b – d – e

3.

a. Many species, including tigers and elephants, are under threat due to poaching and illegal wildlife trade.
b. What can governments do to enforce laws that protect wildlife?
c. Governments need to ensure stricter regulations and impose harsher penalties for wildlife crimes.
d. It's important to establish more wildlife sanctuaries and create stronger regulations for conservation.
A. a – b – c – d
B. b – d – a – c

LIVEWORKSHEETS

C. a – c – b – d
D. b – c – a – d

4.

a. Why is habitat restoration so crucial in the fight against species extinction?
b. Restoring damaged ecosystems allows wildlife to thrive again and reduces human-wildlife conflict.
c. Can you provide some examples of successful restoration projects?
d. One example is the restoration of coral reefs, which supports marine biodiversity and strengthens coastal ecosystems.
A. a – b – d – c
B. c – d – b – a
C. a – b – c – d
D. b – d – a – c

5.

a. How do climate change and global warming affect wildlife?
b. As temperatures rise, many species face difficulties in adapting to new environmental conditions.
c. These changes force animals to migrate to new areas, and some are unable to adapt quickly enough.
d. Some species are critically endangered due to these extreme changes in their habitats.
A. a – b – c – d
B. d – a – c – b
C. c – b – d – a
D. a – d – b – c

6.

a. What role do local communities play in the success of wildlife protection?
b. Local communities are often the first to notice changes in wildlife populations and can act as early warning systems.
c. Educating these communities about the value of wildlife conservation can help prevent illegal activities such as poaching.
d. Additionally, involving them in eco-tourism initiatives can provide economic incentives to preserve their natural surroundings.
A. a – b – d – c
B. b – a – d – c
C. c – d – a – b
D. d – c – b – a

7.

a. In many parts of the world, wildlife corridors are being established to connect fragmented habitats.

Ms. Minh Ha - 0982194748 - Hai Ba Trung - Ha Noi

b. These corridors allow animals to migrate and interact with others of their species, which is essential for genetic diversity.
c. Can you explain the benefits of these wildlife corridors?
d. Yes, they provide safe routes for animals to move between protected areas, reducing the risk of inbreeding and population decline.
A. a – b – d – c
B. b – d – a – c
C. a – c – b – d
D. c – b – a – d

8.

a. How can technology be used to monitor wildlife populations?
b. Technologies like satellite tracking and drones can help scientists gather data on animal movements and populations.
c. These methods provide valuable insights into wildlife behavior and their responses to environmental changes.
d. The data collected can be used to develop more effective conservation strategies and protect at-risk species.
A. c – b – a – d
B. b – a – d – c
C. a – b – c – d
D. d – a – b – c

9.

a. Many people are unaware of the importance of wildlife conservation.
b. How can we raise awareness about the dangers of species extinction and habitat loss?
c. Public education campaigns, documentaries, and school programs are essential for spreading awareness.
d. Engaging with local communities and encouraging them to participate in wildlife protection efforts is crucial for long-term change.
A. a – b – c – d
B. d – a – b – c
C. b – c – a – d
D. a – c – b – d

10.

a. What steps can individuals take to contribute to wildlife conservation?
b. People can reduce their carbon footprint by supporting sustainable practices and cutting down on waste.
c. Supporting conservation organizations and participating in local conservation efforts can also make a significant difference.
d. It's also important to avoid products made from endangered species, such as ivory or animal skins.
A. c – b – d – a
B. d – a – c – b
