19. _____ 23. _____
 20. _____ 24. _____
 21. _____ 25. _____
 22. _____

IV. Make a creative diagram about your answers in numbers 21-25.

RUBRICS	5	3	1
Diagram and Illustrations	Diagrams and illustration are accurate and add to the reader's understanding of the topic.	Diagrams and illustrations are not so neat and accurate and only add little to the reader's understanding of the topic.	Diagrams and illustrations are not accurate and do not add to reader's understanding of the topic.
Orderliness	The student was able to illustrate the process in order.	The student misarranged 1-2 processes on his/ her illustration.	The student misarranged 3 or more processes on his/ her illustration.

26 – 35.

V. Identify the following types of open wound and complete the table below.

	NAME	CHARACTERISTICS
	36. _____	37-38. _____ _____ _____ _____
	39. _____	40-41. _____ _____ _____ _____
	42. _____	43-44. _____ _____ _____ _____
	45. _____	46-47. _____ _____ _____ _____
	48. _____	49-50. _____ _____ _____ _____

VI. Short Answer.

A. In not less than 2 sentences, answer the following questions.

51 – 52. Why is it important to provide care and support for family members who are elderly or have special needs at home?

53 – 54. In what ways does home caregiving contribute to maintaining a sense of family unity and support?

55 – 56. How does home caregiving help individuals maintain their independence and dignity?

57 – 58. Why is it important to recognize and appreciate the efforts of caregivers who provide support within the family?

59 – 60. What impact does home caregiving have on the overall well-being and quality of life of both the caregiver and the recipient of care?

B. Answer the following questions in not less than 4 sentences. (10 points)

61. – 65. You're on a camping trip with your friends, and while hiking, one of them trips and sprains his ankle badly. There's no immediate access to professional medical help. Explain why having knowledge of first aid treatment is vital in this situation, and outline the specific steps you would take to assist your friend and ensure his safety until further help can be reached.

66. – 70. During a camping trip with your classmates, one of your friends suddenly collapses and appears to be unconscious. Upon checking, you find that he is not breathing and have no pulse. You have been trained in CPR. Describe the steps you would take to assess the situation, ensure the safety of the area, and provide effective CPR until emergency medical services arrive. Consider factors like calling for help, checking for hazards, and coordinating with others in your group while administering CPR.

God is good! 😊
