Text

"While learning a new language, you may never have stopped to think about the origin of some words or other curious bits of information. With the English language, it is no different! For instance, did you know that by saying the phrase 'The quick brown fox jumps over the lazy dog' you can use all the letters in the English alphabet? Or, have you ever stopped to think about how many definitions the word 'set' has? Well, of all the words in an English dictionary, 'set' is the one that has the most definitions. And do you think it's possible to write a word in English without using any vowels? If you guessed 'yes' you are right, and the longest one is 'rhythm'. Finally, have you ever thought about what letter it is that you use the most when you talk in English? The answer is 'E'. How cool is that?! Now you know what letter to choose when playing hangman."
