

Instructions: Match the symptoms with the best "had better" advice.

1. A high fever and chills.

2. A persistent cough and sore throat.

3. A sprained ankle after falling down the stairs.

4. A stomachache from eating too much fast food

5. A toothache that won't go away.

6. A serious cut on your finger

A. You had better drink plenty of water and take some rest.

B. You had better see a dentist as soon as possible.

C. You had better follow a diet and avoid junk food.

D. You had better apply a cold compress and keep your foot elevated.

E. You had better monitor your symptoms and take medication.

F. You had better clean the wound and apply a bandage immediately.
