Trailing Stop Loss Smart Indicator on TradingView - Free - [TradingFinder]

The **Trailing Stop Loss Smart Indicator** is one of the advanced **TradingView indicators** designed for **risk management and market trend identification**.

By integrating several key concepts such as **Cumulative Volume Delta (CVD)**, **Exponential Moving Average (EMA)**, and **Average True Range (ATR)**, this indicator assists traders in making informed trading decisions.

Its primary goal is to enhance the accuracy of **entry** and **exit** decisions, minimize potential losses, and maximize profits using trailing stop-loss techniques.

LIVEWORKSHEETS

Trailing Stop Loss Smart Indicator Specifications

Category	ICT - Capital Management - Levels and Zones
Platform	TradingView
Skill Level	Intermediate
Indicator Type	Trend-Following - Range
Timeframe	Multi-Timeframe
