SCARED TO BE LONELY
By Dua Lipa ft Martin Garrix

Match the halves

It was great	to be far apart
Hands on	the better
Couldn't stand	each other
Closer	at the very start

Cross out the extra words

Now we're picking our fights and slamming the doors
We're magnifying all our flaws
And now I wonder why, wonder what for
Why do we keep coming back for more

Complete with the missing words

Is it just _____? Are we both _____?
Is the only reason you'_____me tonight
'Cause we're scared to be lonely?
Do we _____ just to feel like we_____?
Is the only reason you_____ me tonight
'Cause we're scared to be lonely?

Find and correct the mistakes

Too many time, losing track of us
Where was the real?
Undefined, spiraling out of door
Forgot if it feels

All the messed up lights and slamming doors
Magnifying some of our flaws
And I wonder what, wonder what for
It's like you keep coming back for more

(chorus)
Scared to be lonely

Put the verses in order

_____Holding on tonight 'cause we're scared to be lonely
_____Tell me, how can we keep holding on?
_____Been somebody better for us all along
_____Even when we know it's wrong

(x2)

(chorus)
