LIVEWORKSHEETS

Reading

16 Read the text and decide if the sentences below are *R* (right), *W* (wrong) or *DS* (doesn't say).

Niagara Falls

Niagara Falls is one of the most popular tourist attractions in the world. It attracts more than 30 million visitors every year.

You'll actually find three different falls here, two in the USA and one in Canada. The largest of the three is Horseshoe Falls in Canada, which is shaped like a horse's shoe. Bridal Veil Falls and the larger American Falls are in the USA.

It's easy to get a good view of the falls from the street but for those more adventurous people, there are three other exciting ways to see the falls. Tourists of all ages can take a spectacular helicopter tour over the falls or ride the Maid of the Mist boat cruise to see the falls from below. Adults and children over seven can get their hearts racing by ziplining over the falls.

Niagara Falls gets visitors all year but few in the winter when the weather can be quite cold. Most come in the summer when the nights feature coloured lights dancing over the Canadian and American falls.

1 Niagara Falls has more tourists than any other attraction. _____
2 The largest falls aren't in the USA. _____
3 Children cannot take the helicopter ride. _____
4 The helicopter ride is the most expensive way to see the falls. _____
5 Only local people visit the falls in the winter. _____
6 Most tourists don't visit the falls in the winter. _____
