                   C. Learning negotiated      D. To learn negotiating
- Question 27. A. our family relationships      B. their family relationships  
                   C. your family relationships      D. its family relationships
- Question 28. A. someone is in your family      B. to identify someone in your family  
                   C. identify someone in your family      D. someone to identify in your family

**Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions.**

Many children have music classes when they attend school. And it is thought that music can help them learn other subjects better. Research has shown that it can improve children's performances in certain subjects.

Some studies have shown that music training can help you understand your own language better. It could also help you with learning a second one. Moreover, young people who have studied music also seem to get higher scores in other subjects like maths. So it could be that these school subjects are connected in some way.

Music also helps you think of new ideas, and believe more in yourself. If you are learning the guitar, for example, it can be really exciting when you are able to start composing your own pieces of music. One of the biggest benefits, of course, is that listening to music can reduce your stress. And composing music can make you feel the same way. Maybe your musical knowledge will even open up a great career path for you in the future.

|-------------------------------------|---|
| A. It helps you think of new ideas. | B. It helps you believe more in yourself. |
| C. It helps you make more friends.  | D. It helps you reduce stress.            |

**Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the questions.**

A survey into the media habits of teenagers in the USA reveals some surprising statistics. The average teenager spends an incredible eleven hours each day on their mobile phones, computers, games consoles or TVs. That's more hours than they are awake outside school time! How are they able to do this? The answer, of course, is multitasking.

The results of the survey came as no surprise to fifteen-year-old participant Jake Kendall. He told researchers that he multitasked every second that he was online. He said that he was completing their survey at the same time as watching a TV show, chatting to friends online and reading reviews of the latest film releases. For sixteen-year-old Marisa Sanchez, the survey simply confirmed the facts. She said that she had watched two hours of TV in the three hours since the end of school, and also researched her homework about volcanoes, played an online game for two hours, and arranged her weekend plans by texting friends.

Some experts are worried about the survey results. Sylvia de Lupis of the Family Action Institute told our reporter that teenagers would have difficulties because of their multitasking habits. She added that, as adults, they would struggle to focus their attention. However, Dr. Michael Rich from the Center on Media and Child Health said that worries about multitasking had become pointless a long time ago, and that high levels of media use were now a part of young people's environment, 'like the air that they breathe, the water that they drink and the food that they eat'.

**Question 34:** Which of the following is the best title for the passage?

- A. Teens: More Media Use Than Hours in The Day
- B. The Art of Multitasking: A to Z for Teens
- C. Teens: Learning through Media
- D. Multitasking - Part of Teens' Everyday Life

**Question 35:** According to paragraph 1, which device may not be used daily by teens?

- A. game consoles
- B. televisions
- C. e-book readers
- D. phones

**Question 36:** The word "reviews" in paragraph 2 is closest in meaning to \_\_\_\_\_.

- A. comments
- B. plots
- C. discussions
- D. complaints

**Question 37:** The word "they" in paragraph 3 refers to \_\_\_\_\_.

- A. habits
- B. adults
- C. difficulties
- D. teenagers

**Question 38:** The word "pointless" in paragraph 3 is opposite in meaning to \_\_\_\_\_.

- A. useful
- B. invaluable
- C. worthless
- D. ineffective

**Question 39:** Which of the following is **NOT** true according to the passage?

- A. An average teen in America spends nearly half a day using media.
- B. Marisa Sanchez could complete her school assignment and relax at a time.
- C. Dr. Michael Rich expected teenagers to get distracted due to multitasking
- D. Frequent media use is possibly a matter of course to young people.

**Question 40:** Which of the following can be inferred from the passage?

- A. Family Action Institute must work to stop multitasking.
- B. Young people should concentrate on only one medium at a time.
- C. Jake Kendall and Marisa Sanchez got good academic results.
- D. Youngsters' multitasking habits in media use meet with mixed reactions from the public.

---THE END OF THE TEST---
