

REVISION FOR TEST – GRADE 4

I. Look and write 1 for magnetic materials and 2 for non – magnetic materials.

| | | |
|--|---|---|
| 1.  coin <input type="checkbox"/> | 2.  rubber ball <input type="checkbox"/> | 3.  steel spoon <input type="checkbox"/> |
| 4.  bag <input type="checkbox"/> | 5.  T-shirt <input type="checkbox"/> | 6.  scissors <input type="checkbox"/> |
| 7.  nail <input type="checkbox"/> | 8.  eraser <input type="checkbox"/> | 9.  lollipop <input type="checkbox"/> |

II. Read and choose the correct answer.

1. Which force pulls objects toward the ground?

- A. Normal force
- B. Gravity
- C. Applied force
- D. Multiple force

2. When you push a shopping cart, what force are you using?

- A. Gravity
- B. Normal force
- C. Applied force
- D. Magnetic force

3. Which example shows an applied force?

- A. A ball rolling down a hill
- B. A book resting on a table
- C. A person pushing a door open
- D. The moon orbiting the Earth

4. What is a satellite?

- A. A flying bird
- B. A machine that orbits a planet
- C. A shooting star
- D. A spaceship

5. What forces are acting on a book on a table?

- A. Gravity and normal force
- B. Push and pull
- C. Electricity and magnetism
- D. Wind and gravity

III. Read and complete.

orbit chlorophyll fur Hibernation Magnetic materials
northern bigger migrate

1. are materials that are attracted to a magnet.
2. The is shaped a bit like an egg.
3. The Sun is than the Earth.
4. When the hemisphere has summer, the southern hemisphere has winter.
5. Plant leaves are green because they contain a green substance called
6. describes how the animals' body goes into a dormant state for a long period of time.
7. When seasons change and there is no longer enough food to eat, some animals to warmer regions where there is food.
8. Some animals have fur to keep them warm.

IV. Read and write True or False.

1. Camels can not survive for a week or more without water.
2. In a hot, dry environment there is a lot of water.
3. The chlorophyll in the leaves helps to produce food for the tree.
4. Tree have resin on their leaves.
5. Fish are adapted to their environment because they have fins.
6. Waxy coating stops water from escaping.
7. Plants and animals are adapted to hot, dry environment by using lots of water.
8. During the cold winter months the tree has no leaves at all.
9. Seasons are caused by the Earth orbiting the sun twice a year.
10. Plastic and wood are attracted to a magnet.
