# MONTHLY TEST 5

Student's name: …… …… Date: April 9th, 2025

## II. READING

***Part 1*. Put a word from the box in each gap to complete the following passage. There are more words than needed. Make changes if necessary (1pt)**

| replace - sun - disappear - heat - pollute - installed |
|---|

Are you looking for a cheap, clean, effective source of power that doesn't cause (1)…..…….. or waste natural resources? Look no further than solar energy from the 2) ……..……...…… At present, most of our electricity comes from the use of coal, gas, oil and nuclear power. This power could be provided by the sun. One percent of the solar energy that reaches the Earth is enough to provide power for the total population. Many countries are already using solar energy. Solar panels are (3)…… on the roof of a house and the sun's energy is used to (4)…….. water. The energy can be stored for a number of days, so on cloudy days you can use solar energy, too.

**Part 2. Read the text and answer the questions True or False**.

Nga's family wants to reduce their energy consumption. Nga and her brother will go to school by bike while her mother will take the bus to work. Tomorrow, her mother will buy some low energy light bulbs to use in all rooms. Besides, at 5 o'clock tomorrow afternoon, dad will be putting solar panels on the roof of their house. From next week, all the water in Nga's house will be heated by solar energy. Nga also tells her brother to turn off the lights when he gets out of the room. Nga and her family feel happy that they have small carbon footprints because they are using less energy that produces carbon footprint.

1…….. Nga's family wants to reduce their energy consumption.

2……... Nga and her brother will cycle to school.

3……... At 5 o'clock tomorrow afternoon, Nga's dad will be repairing solar panels on the roof of their house.

4. …….. Nga and her family feel happy that they have big carbon footprints.

5. …….. The paragraph is about saving and using renewable energy.

## III. VOCABULARY
