Power of Three Indicator in Smart Money Style for MetaTrader 4 Download - Free

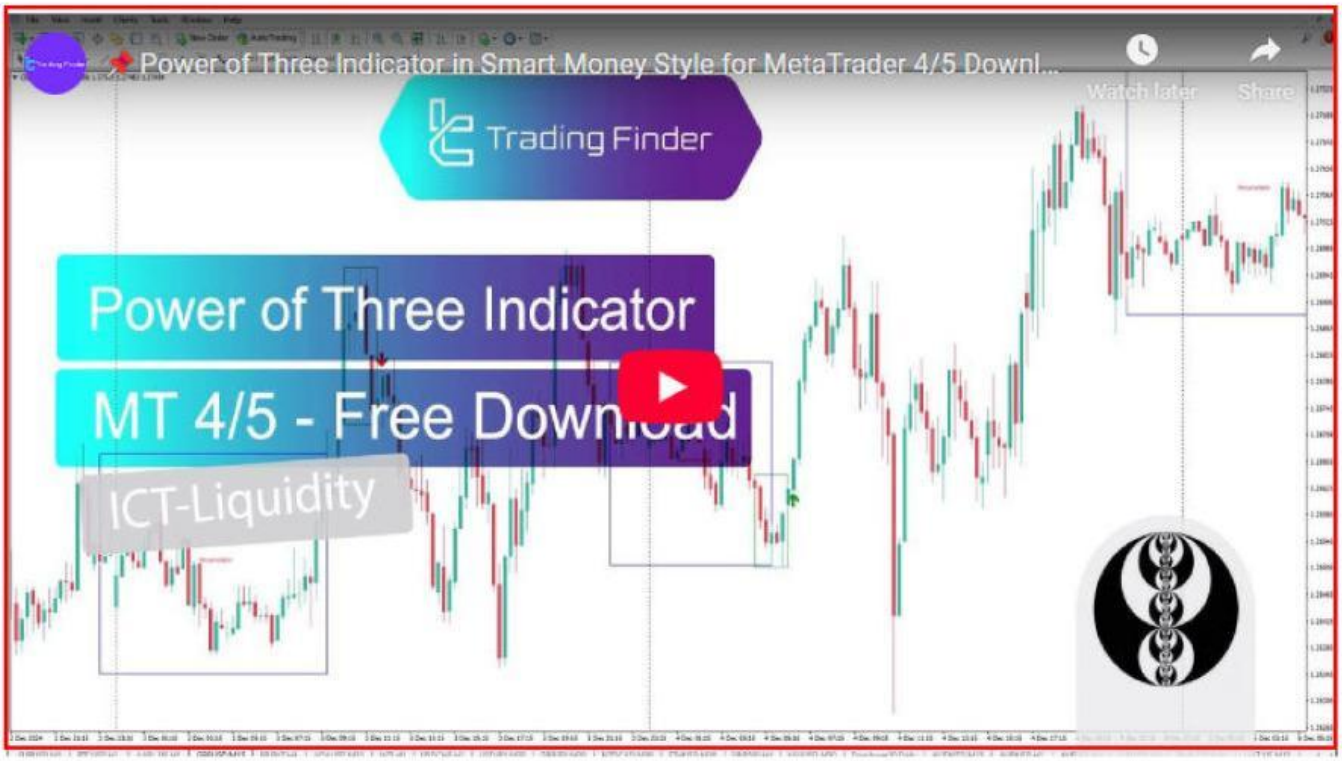

The **Power of Three Indicators** is based on three important concepts from Smart Money **Accumulation**, **Manipulation**, and **Distribution**. Each one, in turn, determines price stability, liquidity in trading, and phase identification (direction) of the price.

With the help of this **MT4 Smart Money indicator**, traders can identify suitable trading opportunities in the direction of the main trend of Smart Money.

Blue areas represent the accumulation zone, and green areas represent the manipulation zone.

Finally, a green arrow indicates a buying opportunity (Long), and a red arrow signals a selling opportunity (Short).

Power of Three in an Uptrend

According to the 30-minute price chart of **Binance Coin (BNB)**, if the difference between the top and bottom of the blue box is less than the **Average True Range (ATR)**, a distribution range is identified.

Once the price exits this range, it enters the manipulation phase, and immediately after, a **buy signal (Long)** is issued.

The **ATR** measures the average market volatility over the trader's desired period.

Power of Three Indicators on the BTC Price Chart

Power of Three in a Downtrend

The red arrow on the **EUR/USD** price chart in the 1-hour timeframe signals a **sell (Short)** trade.

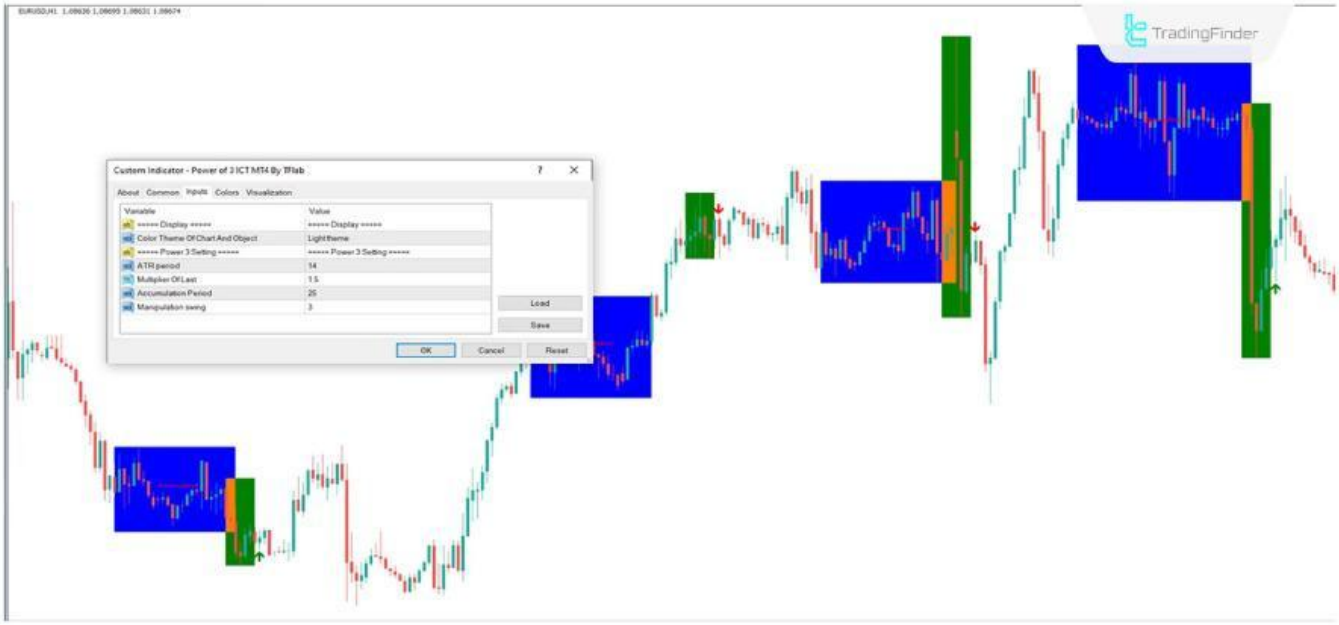

This signal is in the direction of the main price trend and is issued after the price exits the green manipulation range.
