Read the passage below and choose the best option A, B, C or D to indicate the correct answers to each of the following questions

Mexico City is growing quickly. In 1970, the city had about 9 million people. Now, it has over 17 million. All these people are causing problems of the city. There are not enough jobs. Also, there is not enough housing. Large families have to live together in small homes. Many homes do not have water and electricity. The Mexican government is worried about all these problems. It is working hard to make life better in the city.

Why is Mexico growing so fast? Where are all these people coming from? They are coming to the city from the countryside. Life is hard on the farms in Mexico. Most people on farms have to live a very simple life. They have no extra money for modern things. They think life in the city must be better. So they leave their farms and move to Mexico City.

All around the world, large cities have the same problems. One of them is air pollution. Mexico City has polluted air. It is dirty and unhealthy. Cars are one reason for the dirty air. Many Mexicans now own their own cars and drive in the city. The factories in the area also cause air pollution. These factories put a lot of smoke into the air. It is not easy to clean up the air in a large city. The government has to make new laws, and everyone has to help.

28. ***Now, Mexico City has _____ people.***

A. over 9 million B. nearly 9 million

C. nearly 17 million D. over 17 million

29. ***Large families have to live together in small houses because_____.***
