READING: PROFESSIONS

My name is Sofia. I am 15 years old and I live in Guayaquil, Ecuador. I study at a local high school. I like science and helping people. My dream is to become a doctor.

My father is an engineer. He builds bridges and roads. My mother is a teacher. She teaches math at a primary school.

My best friend, Diego, wants to be a chef. He loves cooking and watches cooking shows every day.

At school, we learn about different jobs. Our English teacher talks about careers like nurse, firefighter, pilot, and police officer.

I want to study medicine at the university. I know it is hard work, but I am ready. I want to help people and make them feel better.

Sometimes, I talk to my aunt, who is a nurse. She works in a hospital and tells me about her experiences. She says being a nurse is not easy, but it is a very important job. I admire her a lot.

We also had a career day at school last week. Many professionals came to talk to us about their jobs. There was a firefighter, a pilot, and even a computer programmer. I asked many questions and learned new things.

Answer the next questions about the text:
