- a. as b. better c. more

III. Write *T* for True or *F* for False.

Cheetahs and Lions

The cheetah and the lion are cats that live in Africa. Both animals are predators. That means that they hunt prey for food. The lion is as good as the cheetah at attacking its prey. The lion is not as fast as the cheetah, but it is bigger and stronger. The cheetah uses its spots for camouflage. The lion doesn't have any spots, but its color acts as camouflage. Both cheetahs and lions can live between 10 to 15 years in the wild.

1. Both the lion and the cheetah live in Africa. _____

2. The lion is a predator. _____

3. The lion is much faster than the cheetah. _____

4. Both the cheetah and the lion use spots for camouflage. _____

IV. Write *T* for True or *F* for False.

Ray Chen, Classical Violinist

There are lots of kids who like hip-hop and pop music. But how many kids like or listen to classical music? Ray Chen is a violinist. He wants kids to know that playing classical music is as fun as playing other types of music. Ray started playing the violin when he was four years old. His first instrument was a guitar, but he put the guitar under his chin and plucked the strings like a violin!

He was born in Taiwan but grew up in Australia. When he was fifteen, he moved to the US to go to music school. Now he plays the violin around the world. He once played to more than 800,000 people.

In 2014, he started making funny videos to show kids that playing classical music can be fun and interesting. He has over 100 videos! In some videos, he shows how to play the violin. In other videos, he shares his ideas of what to do when someone is having trouble learning to play the violin. He knows learning to play correctly and practicing for many hours a day is hard, especially for kids. He remembers how hard it was for him when he was little.

1. Ray's first instrument was a _____.
a. drum b. guitar c. violin
