3 Read and choose.

1. I want to a robot that cleans up the house.

A. invent B. play C. listen D. read

2. There are 60 in an hour.

A. seconds B. decades C. minutes D. centuries

3. My friends and I every weekend.

A. chess B. hang out C. musician D. blow

4. The biggest planet in the Solar System is

A. Mars B. Earth C. Venus D. Jupiter

5. Her painting is than mine.
A. gooder B. better C. the goodest D. the best

6. Kate is in a She is late for school.
A. bump B. hurry C. stick D. rude

7. That girl is very She took my umbrella without asking.
A. nice B. rude C. bright D. beautiful

8. There are eight in the Solar System.
A. moons B. stars C. planets D. suns

9. I'm interested playing football with my friends.
A. in B. about C. of D. with

④ **Choose and write:** *drum, dream, invent, orchestra, cello, Neptune*

1. A round instrument that you hit with a stick or your hand.
2. A large group of musicians play together.
3. It is when you make or think of it for the first time.
4. An instrument that looks like a big violin.
5. People often have this when they sleep.
6. It is the furthest planet from the Sun.

④ **Read and choose.**

1. Suzy is **frightened** / **frightening** of the dark.
2. I'm happy **with** / **at** my new doll.
3. The book is so **interested** / **interesting**. I can't wait to read it again!
4. Is Tom afraid **about** / **of** the dark room?
5. My grandfather thinks this movie is **bored** / **boring**.
6. My sister is **excited** / **exciting** about her school trip tomorrow.

2 Choose the correct answer.

Saturn is the sixth planet from the Sun. It is one of the largest planets in our Solar System. Saturn is very special because it has big rings around it. These rings are made of ice and rocks.

A day on Saturn is only about 10 hours long, but a year on Saturn is more than 10,000 days! Saturn has more than 80 moons — that is more than any other planet in the Solar System.

Saturn is a very cold planet because it is far from the Sun. Scientists use special telescopes to study Saturn from Earth.

❖ Write True or False

1. Saturn is the third planet from the Sun.
2. Saturn has rings around it.
3. A year on Saturn is shorter than a year on Earth.
4. Saturn is a very cold planet.
5. Scientists study Saturn using telescopes.

❖ Answer the questions

Is Saturn the smallest planet in the Solar System?

→

Why is Saturn special?

→

Which has more moons, Saturn or Earth?

→

How many days are there in a year on Saturn?

→

What did scientists say about Saturn?

→
