

A continuación se presentan rombos con algunos datos y operaciones e incompletas, a partir de ello une con una línea la operación con el rombo correcto y complementa las operaciones

$$D = \underline{\hspace{1cm} \text{cm} \hspace{1cm}}$$

$$d = \underline{\hspace{1cm} \text{cm} \hspace{1cm}}$$

$$A = \frac{5 \times 2}{2} = \frac{10}{2} =$$

$$A = \underline{\hspace{1cm} \text{cm}^2 \hspace{1cm}}$$

$$D = \underline{\hspace{1cm} \text{cm} \hspace{1cm}}$$

$$d = \underline{\hspace{1cm} \text{cm} \hspace{1cm}}$$

$$A = \frac{4 \times 1}{2} = \frac{4}{2} =$$

$$A = \underline{\hspace{1cm} \text{cm}^2 \hspace{1cm}}$$

$$D = \underline{\hspace{1cm} \text{cm} \hspace{1cm}}$$

$$d = \underline{\hspace{1cm} \text{cm} \hspace{1cm}}$$

$$A = \frac{6 \times 4}{2} = \frac{24}{2} =$$

$$A = \underline{\hspace{1cm} \text{cm}^2 \hspace{1cm}}$$
