Xmaster Formula Indicator for MetaTrader 4 Download - [TradingFinder]

TradingView MetaTrader4 MetaTrader5

LIVEWORKSHEETS

The **Xmaster Formula Indicator** is a combination of the **Moving Average** and **MACD** indicators. This tool enhances the **ability** to identify both the **strength** and **direction** of a trend with greater accuracy.

The **Xmaster Metatrader 4 Indicator** provides **Entry Signals** for traders using **green** and **red arrows**.

A specialist from the TradingFinder development team said:
"Some users **mistakenly type XHmaster instead of Xmaster** when searching for the indicator. This mistake has caused difficulties for some individuals in finding accurate information. To avoid this confusion, users should ensure they search using **the correct name, which is Xmaster.**"

Uptrend Conditions

The price chart of **Gold (XAU/USD)** on the 4-hour timeframe is shown below.

The **green arrow** signals an **uptrend** and trend reversal. In such conditions, **traders can** use the **green arrow** as an **Entry Signal** and open a **Buy** position.

LIVEWORKSHEETS

The continuation indicator of Formula X Master is in an uptrend

Downtrend Conditions

The price chart below shows the **USD/JPY currency pair** on the 5-minute timeframe.

The **red arrow** signals a **trend reversal** and indicates a **downtrend**, providing a **Sell**

Returning indicator and continuation of the X Master formula in a downward trend
