Swing Failure Pattern (SFP) Indicator for MT4 Download - Free - [TradingFinder]

The **Swing Failure Pattern (SFP)** forms when the price **falsely breaks through** a **previous high or low** with the **body of a candlestick** to**trigger liquidity areas and stop-losses**. In simple terms, the **break of the area identified by the indicator is fake** (**Fake Breakout Zone**), and the price returns to its **original direction**. In this indicator, the **high price is shown in green**, and the **low in red**.
