5. This train runs 50 km/h. That train runs 60 km/h.	→ This train runs _____ **(slowly)** than that train.

III. Read and write True or False.

A great idea!

Frazer and Peter are two 14-year-old boys who grew up in the same small Canadian town. They have always been friends and classmates. Like all their other friends, they enjoy going hiking or swimming at weekends. But for the last few months, they've spent every weekend in Peter's room working on his laptop. This isn't because they have a lot of homework. They have made a new computer word game.

The idea for the game came from Frazer's little brother, Kevin, who had problems with his reading. Kevin learns words more easily by seeing pictures and hearing information than he does by reading. His brother wanted to help. Frazer and Peter worked together for over 200 hours to make a computer game and now it's ready to use. It's a speaking and picture game. For example, if you look at the word 'hat', there's a drawing of a hat next to it and you can hear Peter saying 'Hat! Hat!' at the same time.

The two boys have won a lot of prizes for their computer game and it will soon be on sale around the world. Many schools are interested in buying it.

0. Peter and Frazer are both teenagers. <u>True</u>

1. Peter and Frazer like doing sports. _____
2. For the past few months, the boys have spent most of their time outside. _____
3. They've spent every weekend doing their homework. _____
4. It took less than 200 hours to finish the new computer game. _____
5. In the computer game, you see a picture of a word and hear it spoken. _____
