

Sacred Monkey Forest Sanctuary

Instruction: Match each picture with the correct keyword

Bali Indonesia

Sacred Monkey Forest Sanctuary

They change from having weak rules and no technology (like tracking monkeys) to stricter laws and the use of more technology.

Belief

Bali Indonesia

Sacred Monkey Forest Sanctuary

The local community and forest caretakers work together to take care for more than 750 long-tailed macaques, allowing them to live freely and safely without threats from predators and feeding them everyday.

Practice

Bali Indonesia

Sacred Monkey Forest Sanctuary

The Balinese believe that certain trees are sacred and are used in spiritual rituals. For example,

- Majegan Tree – used specifically to make temple
- Pule Bandak Tree – used to make powerful masks for spiritual rituals
