

## Exercise 6

Choose the best summary for the graph.

- Both lines went up and down a lot. Line A changed much more than Line B.
- The biggest changes for Line A will happen in the last ten years of the graph, between 2020 and 2030. However, Line B had its own most important changes earlier in the graph, between 2005 and 2015.

Line A went up to 40% in 2010, then down to 20% by 2020, and then up to 75% in 2025 and back down to 65%, so there was a lot of change. Line B increased to 75% in 2015, then went down to 40% in 2020, so a lot of change there as well. It didn't change much after that, only up by 10% and then down by 5%.
