Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions.

Tel Aviv will be the first city in the world to have a skyTran system. This system will help the city reduce traffic congestion. Moreover, skyTran will provide a greener, less expensive, faster, and more comfortable mode of travel than cars and buses. The system has many pods and each pod has two seats. Passengers can get a pod by using a smartphone app. The pods **glide** along the rails above to their destination. The pods run on electricity and can travel at speeds up to 150 mph while passengers will still have a smooth ride. The system is about 70 m above the ground. The cost is higher than taking a bus but lower than taking a taxi. So, many people think it will be a perfect means of transport to replace traditional ones. The USA and many Asian countries are interested in building skyTran networks in the very near future.

Question 28: What is the main idea of the reading passage?

A. Tel Aviv's new plan to build more buses
