Ex3: Read the passage and choose the correct answer:

Computers are helpful in many ways. First, they are fast. They can work with information even more quickly than a person. Second, computers can work with a lot of information at the same time. Third, they can store information for a long time. They do not forget things that the common people do. Moreover, computers are almost always correct. They are not perfect, but they usually do not make mistakes.

Recently, it is important to know about computers. There are a number of things to learn. Many companies have computers at work. In addition, most universities offer day and night courses in Computer Science. Another way to learn is from a book, or from a friend. After a few hours of practice, you can work with computers. You may not be an expert, but you can have fun.

1. Why are computers considered fast?

- A. Because they work slower than people
B. Because they can work with information faster than people
C. Because they make many mistakes. D. Because they never stop working

2. What is one thing computers can do that people usually cannot?

- A. Sleep while working B. Forget important things
C. Store information for a long time D. Work without electricity

3. Are computers always correct?

- A. Yes, they are perfect B. No, they often make mistakes
C. They are almost always correct but not perfect D. They are always wrong

4. Where can people learn about computers according to the passage?

- A. Only at work B. Only at home
C. At universities, from books, or from friends D. Only on the Internet.

5. How long does it take to start working with computers according to the passage?

- A. Many years B. A few minutes C. A few months D. A few hours
