

Working with Numbers

Number Line

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20

Numbers

Look at the number line. It shows the 1 to 20 in order. Some numbers are even and some numbers are odd. The are blue and the are red.

Counting

Read the even numbers aloud. When there are a lot of things in a group, we can use the to count the things by twos. This helps us to count fast. by twos.

Addition

We use every day. It helps us count things. We join groups of things with .

This is a
It tells us to add the numbers together.

This is an
It tells us that the numbers on both sides are the same amount.

This is the

We say, "Two plus three equals five."

We write ...

$$2 + 3 = 5$$

Addition problems

Let's use addition to work out answers to these word

You have orange seashells. I have green seashells.

How many do we have?

$$8 + 9 = 17$$

They have red crabs, blue crabs, and yellow crabs.

How many do they have?

$$6 + 5 + 4 = ?$$

How do you use addition every day?
