### Task Two: Click the correct words

You worked **two** / **three** jobs  
To keep a roof up over our heads  
You chose life for me  
No, you never gave up  
I **admire** / **applaud** you for the strength you've instilled in me

You were so young  
You were just my age when you had me  
Mom, you were so **valient** / **brave**  
There was nothing gonna stop or get in our way  
And **I know** / **I'm sure** you will always be there for me

So when you're lost and you're **weary** / **tired**  
When you're broken in two  
Let my love **elevate** you / **take** you higher  
'Cause I, I still turn to you  
I still turn to you  
I still turn to you

It was '94 / '84  
The year that everything started to change  
From before, you had to be a woman  
You were **compelled** / **forced** to change your ways  
To change your ways

You found the Lord  
You gave your life to Him  
And you could not **ignore** / **reject**  
The love He had for you  
And how He wanted more of your **heart** / **soul**  
So when you're lost and you're tired .....

I don't know what I'd do if you left me  
So please don't **leave** / **go away**  
Everything that you are is who I am  
Who I am **today** / **now**, oh, oh, oh  
So when you're lost and you're tired .....
