Ex4: Read the following passage and circle the letter A, B or C to indicate the correct answer.

Although the world's energy resources have taken many millions of years to produce, we are quickly beginning to exhaust these supplies. Recently a UN committee reported that the world's oil and gas supplies would last about 100 years if they were used carefully. The report stated that there would be enough oil and gas for a century only if the present demand could be controlled. If the demand continued grow , the report said that fuel supplies would last for less than forty years. According to the report, governments must now take step to control the amounts of fossil fuels which are used.

1. If we use oil and gas carefully, how long will they last?

A. About 40 years B. About 100 years C. About 50 years D. About 200 years

2. Why are the world's energy resources running out?

A. Because of many natural disasters B. Because the population grows too fast

C. Because people use too much energy D. Because no new energy sources are found

LIVEWORKSHEETS
