Work with a partner. Read the notes. Then complete Jenny's blog.

My mum

- vet at wildlife centre in Costa Rica
- working with jaguars living in rainforest

Costa Rica

- farmers cutting down trees

- lots of ill animals at wildlife centre

Jaguars

- only Big Cat in Costa Rica

- very good swimmers

- third biggest cat in world

- fur has got spots

- eat birds, monkeys, reptiles, deer, tortoises

## Helping the jaguars

Hello everyone! Welcome to my blog! My name is \_\_\_\_\_ . My mum's working at a wildlife centre in \_\_\_\_\_ at the moment. She's a \_\_\_\_\_. She's working with \_\_\_\_\_. They need our help. They live in the \_\_\_\_\_, but farmers are cutting down the trees to use the land to grow food. This means that the jaguars haven't got anywhere to live and they get ill. There are lots of ill animals at the \_\_\_\_\_. These beautiful animals need our help. Let's work together and tell more people about jaguars.

### Jaguar fun facts:

They are the only \_\_\_\_\_ in Costa Rica.

They love \_\_\_\_\_.

They are the third \_\_\_\_\_ cat in the world.

Jaguars' fur is covered in \_\_\_\_\_.

There are smaller spots inside the bigger black spots.

Jaguars eat fish, plants and many different types of \_\_\_\_\_.
