I wish somebody would have told me, babe
Someday, these will be the good old days
All the love _____
And all these reckless nights _____
Someday soon, your whole life's gonna change
_____ of these good old days

[Verse 1: Macklemore]

I was thinking about _____
I was thinking about _____
We were underground
Loading merch in that _____
In a small club in Minnesota
And the snow outside of 1st Ave
I just wanted my name in _____
Now look at where we at
Still growin' up, still growin' up
I would lay in _____ and dream about what I'd become
Couldn't wait to get older, couldn't wait to be some
Now that I'm here, wishing I was still young
Those good old days

[Chorus: Kesha]

[Verse 2: Macklemore]

Wish I didn't think I had the _____
Wish I didn't drink all of that flask first
Wish I made it to homecoming
Got up the _____ to ask her
Wish I would've gotten out of my _____

Wish I put the _____ back on that shelf
Wish I wouldn't have worry about what _____ thought
And felt comfortable in myself
Rooftop open, and the _____ above
Moment frozen, sneaking out, and falling in _____
Me, you and that futon, we'd just begun
On the grass _____, figuring out who I was
Those good old days

[Chorus: Kesha]

[Verse 3: Macklemore & Kesha]

Never thought we'd get old, _____
Maybe you always look back and think *it was better than it was*

Maybe I've been missin' what it's about

Been scared of the _____, thinkin' about the _____

While missin' out on now

We've come so far, I guess I'm _____

And I ain't worried about the wrinkles around my smile

I've got some scars, I've been around

_____, *I've seen some things, but I'm here now*

Those good old days

[Bridge: Kesha]

You don't know what you've got

'Til it goes, 'til it's gone

You don't know what you've got

'Til it goes, 'til it's gone

[Chorus: Kesha]
