## Reading

9 Read the article and circle true (T) or false (F).

Jane Austen is one of the most famous novelists in the English language.

She was born in Hampshire, England, in 1775. She spent her early life in the village where she was born. At that time, most women got married, had children and stayed at home. Austen was different. She didn't get married – she wrote novels.

Austen also wrote about 3,000 letters. In them, she talked about her daily life and the people that she met. Unfortunately, the letters were burned by her sister when Austen died. As a result, we don't know a lot about her personal life.

Today people all over the world love her books. 318,000 copies of "Pride and Prejudice" were sold in 2007. Her stories are about relationships.

Her characters are fantastic. Some are funny; others are silly; all of them are interesting. Her women heroines are intelligent, and the stories end happily. If you get the chance, read one of her books. You will love it!
