.....

READING

Eating Healthy Foods

Eating healthy foods gives our bodies the nutrients they need. Nutrients help us grow, give us energy, and keep us strong. Fruits, vegetables, whole grains, and lean meats are examples of healthy foods. It is important to eat a balanced diet. A balanced diet includes different types of food in the right amounts. Drinking water is also important because it keeps us hydrated. Eating too much junk food can make us feel tired and sick. Healthy eating and exercise go hand in hand. When we eat well and exercise regularly, we feel our best.

Read the paragraph and answer the questions below (5)

1. What do nutrients do for our bodies?
2. Name four examples of healthy foods.
3. What is a balanced diet?
4. Why is drinking water important?
5. How do healthy eating and exercise work together?
