

10.5.2 Fill in: *reversed, serving, combat, efficient, enzymes.*

Scientists are trying to find ways to the aging process and keep people looking young.

Our bodies are more at removing toxins from our cells when we are young, than when we are old.

Eating a daily of cooked tomatoes can help protect your skin against sun damage.

Scientists haven't just slowed down the aging process in mice; they have it.

Telomerase is just one of hundreds of involved in the aging process.
