

Listening: space

1 15 Listen and write *James* or *Dad*.

- 1 James likes going to museums.
- 2 _____ thinks that a lunar module is uncomfortable.
- 3 _____ finds a countdown clock in the museum.
- 4 _____ sees a spacesuit next to some photos of the moon.
- 5 For _____, wearing a spacesuit would be amazing.
- 6 _____ wouldn't like to be an astronaut.
- 7 _____ is tired after walking around the museum.
- 8 _____ suggests having 'space sandwiches' for lunch.

2 16 Listen to the conversation. Write *t* (true) or *f* (false).

- 1 Helen's brother said that he saw an alien in his dream.
- 2 He said that when he was at the lake, a space capsule landed.
- 3 He said that a little green alien came out of the capsule.
- 4 He said that the alien had yellow spots on her hands and feet.
- 5 He said that the alien touched his dog, and that she was nice.
- 6 He said that at that point in the dream, he woke up.

t

- 1 Work with a friend. Read the ideas. Do you agree or disagree? Say why.

I don't think taking animals into space is a good idea. They can get hurt or ill.

I agree. Animals were born to live on Earth!

1 Going into space with animals is a good idea.

2 We don't need another mission to the moon.

3 Discovering aliens is the most important reason to go into space.

4 Space travel is bad for the environment.

5 Thanks to space travel, we have learned a lot about our planet.

Help with Speaking

When you give an opinion, you can use *I think* or *I don't think*. You can give the same opinion using one phrase or the other. Look at these examples:
*I **think** taking animals into space is a **bad** idea.*
*I **don't think** taking animals into space is a **good** idea.*

- 2 Think of and write three more ideas about space. Use the topics in the box or other topics.

rockets and the environment
 studying our solar system
 holidays on the moon
 building more spaceships than planes

- 1 _____
- 2 _____
- 3 _____

- 3 Work with another friend. Share your ideas from Activity 2. Say if you agree or disagree.

I think rockets pollute the environment. Engineers should stop making them.

I don't agree. I think ...
