

Atidžiai pažvelk į paveikslėlį. Atlik užduotis pagal pavyzdį.

$$2 + 2 + 2 = \square$$

$$3 \cdot 2 = \square$$

$$2 + 2 + 2 + 2 + 2 = \square \square$$

$$\square \cdot 2 = \square \square$$

$$\square + \square = \square$$

$$\square \cdot \square = \square$$

$$\square + \square + \square + \square = \square$$

$$\square \cdot \square = \square$$

$$\square + \square + \square + \square + \square + \square = \square \square$$

$$\square \cdot \square = \square \square$$

Kiek taškų yra kiekvienoje kauliukų grupėje?

Sudaryk sudėties ir daugybos užduotis.

$$\square + \square + \square + \square = \square \square$$

$$\square \cdot \square = \square \square$$

$$\square + \square = \square \square$$

$$\square \cdot \square = \square \square$$

$$\square + \square + \square = \square$$

$$\square \cdot \square = \square$$

$$\square + \square + \square + \square + \square = \square$$

$$\square \cdot \square = \square$$

$$\square + \square + \square + \square + \square + \square = \square \square$$

$$\square \cdot \square = \square \square$$

Kuri sudėties užduotis kurią daugybos užduotį atitinka?

$$6+6+6+6+6+6$$

$$8+8+8+8+8$$

$$2+2+2+2$$

$$1+1+1+1+1+1+1+1+1+1+1$$

$$3+3$$

$$5+5+5+5+5+5+5$$

$$4+4+4+4+4+4+4+4+4$$

$$7+7+7$$

$$9+9+9+9+9+9+9+9+9$$

$$2 \cdot 3$$

$$10 \cdot 1$$

$$6 \cdot 6$$

$$8 \cdot 4$$

$$4 \cdot 2$$

$$5 \cdot 8$$

$$9 \cdot 9$$

$$7 \cdot 5$$

$$3 \cdot 7$$
