PASSAGE 56

Tra ID Đề [5980] - Tra ID Video [5981]

Emergency fire procedures

• If you detect a fire, call emergency, 114. Press the fire alarm, **alert** other guests, and exit the building.
• If a fire is detected inside the room, exit the room immediately, close the door, and activate the nearest emergency alarm. Notify in-house personnel by dialling 1999 and the Fire Department at 114.
• If you are alerted to fire in the building, make sure it is safe to leave your room. Check for heavy smoke. Once you have determined it is safe, take your room key and proceed to the exit nearest to you.
• If it is not safe to leave your room, fill your bathtub and other containers with water. Block all openings, such as vents and under the door, with wet towels. This will prevent fumes from entering your room. Call the hotel staff, informing them of your location.
• If smoke already exists in your room, hold a wet towel over your mouth and stay low.
• Do not break any windows unless absolutely necessary. This will only worsen the situation.

Question 1: What should you do first if you detect a fire?

A. Leave the building immediately.
B. Call emergency services at 114.
C. Break a window to get fresh air.
D. Notify other guests before anything else.

Question 2: If a fire is detected inside your room, what should you do immediately?

A. Open the window to let in fresh air.
B. Take your time to gather your belongings.
C. Wait for someone to come help you.
D. Close the door and activate the alarm.

Question 3: In the passage, the word "**alert**" is closest in meaning to _____.

A. notify B. ignore C. scare D. confuse

Question 4: According to the passage, which of the following statements is TRUE?

A. You should leave the building only if you see a fire.
B. If there is smoke in your room, you should stand up and look for fresh air.
C. You should call the hotel staff if it is not safe to leave your room.
D. You must break a window to escape from a fire.

Question 5: What can be inferred from the passage?

A. It is safe to break windows during a fire.
B. Staying low to the ground can help you avoid smoke.
C. The emergency number to call in case of fire is 1999.
D. People should wait for help instead of taking action.
