To keep healthy, it's important to stay active every day. Regular exercise can help you improve endurance and give you the ability to perform activities for a longer time without getting tired. Many people enjoy going to the gym or playing sports because it helps them build strength and increase their muscles. If you're passionate about sports, you can even compete in tournaments where you challenge other people and test your skills. Whether you like running, swimming, or playing football, it's important to stay active and make physical activity a regular part of your life to maintain good health.

A love of dancing

Paul

My mum was a professional dancer, and I had my first ballet lesson when I was six. I hated it and never went again. Mum was disappointed, but then she suggested that I should try modern dance. It was a brilliant idea. I loved it. When I left school, I joined a modern dance company. Unfortunately, a few years later I had a bad accident. Now my right leg isn't strong enough for me to dance, but I'm training to be a dance teacher.

Mark

My love for dance began when I was four. My big sister took ballet lessons, and when she practised at home, I watched and copied her. I asked my mum and dad if I could have ballet lessons too. They were surprised, but they agreed. Soon I was better than my sister. I studied ballet and modern dance, and when I left school I was offered a place in a modern dance company. One day I want to be a star and dance in musicals.

Samuel

I became interested in dance when one of my friends started going to modern dance lessons. As a joke, I went to a class with him one day. To my surprise, I enjoyed it and the teacher said I was good. I started going to class three times a week, so I didn't have time for football anymore. Some people at school laughed at me. They aren't laughing now. I am a dancer with a famous dance company. Dance is my life.
