Music

The Percussion Family

Percussion instrument must be hit, shaken or scraped to produce a sound.

Percussion instrument are divided into two groups pitched percussion instrument can play a melody. Examples are the piano, timpani, snare drums, and the xylophone.

Non-pitched percussion instruments can play beats and rhythm. Example snare drums, cymbals, tom-tom drums and cymbals.

There are lots of percussion instruments like the triangle, the tambourine, maracas and bells.
