PART 2

This email is from your town's highways department. Answer it in 120 — 150 words.

> *As you know, the town centre has become more and more congested in the last few years. The narrow streets of the old town centre cannot cope with the increased traffic flow. Several possible solutions have been suggested. One is to pedestrianise the central shopping area, and the other is to introduce a one-way system to ease the flow of traffic. A third option is to ban lorries and allow only buses and local cars to enter the area, half the cars on even dates only, and the other half on odd dates. Most of these plans would also involve a complete ban on parking in the centre between 8am and 8pm on weekdays.*

How would you and your friends and family be affected by these proposals?

Do you have any suggestions of your own?
