

EJERCICIOS DE MATEMÁTICA

Ejercicio 1 Aplica la propiedad conmutativa y completa cada ejercicio.

a

$$\boxed{13} + \boxed{127} = \boxed{127} + \boxed{}$$

Diagram showing the commutative property of addition. Blue lines connect the numbers 13 and 127 in the first sum to the corresponding positions in the second sum, indicating they should be swapped.

b

$$\boxed{} + \boxed{29} = \boxed{} + \boxed{233}$$

Diagram showing the commutative property of addition. Blue lines connect the empty boxes in the first sum to the corresponding positions in the second sum, indicating they should be swapped.

c

$$\boxed{41} + \boxed{} = \boxed{227} + \boxed{41}$$

Diagram showing the commutative property of addition. Blue lines connect the numbers 41 and the empty box in the first sum to the corresponding positions in the second sum, indicating they should be swapped.

d

$$\boxed{61} + \boxed{} = \boxed{307} + \boxed{}$$

Diagram showing the commutative property of addition. Blue lines connect the numbers 61 and the empty box in the first sum to the corresponding positions in the second sum, indicating they should be swapped.
