

*Sing your own ..... even if it's out of key*

*If you're gonna move your feet, do it to your own beat*

*Soon ..... you will see, you are you and I am me*

*That's alright and you don't need to ..... up apologies*

Everything you do is .....

So long as you do it your own way

Not one thing about you needs changing

For someone .....

*See, you don't need to be like .....*

*'Cause fitting in is overrated*

Yeah, you can ..... them stare

You shouldn't ..... to care what they think

Don't listen to the voices .....you

'Cause they don't know what they're talking about

To me, it looks like you've already ..... you

You seem alright to me

Whoa, you don't have to.....

*You already know*
