

Social studies

Exam Preparation Worksheet Three

Choose the correct answer from the given alternatives

- Which one of the following is not internal force?
A. Folding B. Faulting C. Volcanism D. Erosion
- Which fold mountain is found in South America?
A. Alps B. Atlas C. Rockies D. Andes
- A very large mass of magma which accumulates in the crust is termed as:
A. Dyke B. sill C. batholith D. laccolith
- Which type of volcano has not erupted in historic time?
A. Extinct volcano C. Dormant volcano
B. Active volcano D. magma
- Which one of the following is Extrusive land form?
A. Caldera B. Crater C. Lava D. All
- Which type of erosion occurs when floods cut deep wide gorges?
A. Sheet erosion C. Gully erosion
B. Rill erosion D. Denudation
- Of the four main atmospheric layers, Which one is the correct upward sequence?
A. Mesosphere → Thermosphere → Stratosphere → Troposphere
B. Thermosphere → Mesosphere → Stratosphere → Troposphere

- C. Troposphere → Stratosphere → Mesosphere → Thermosphere
D. Stratosphere → Troposphere → Mesosphere → Thermosphere

8. In Which economic activity manufacturing is classified?
A. Secondary economic activity
B. Primary economic activity
C. Tertiary economic activity
D. quaternary economic activity
9. The process in which ice changes directly into water vapor is known as:
A. Deposition
B. Evaporation
C. sublimation
D. condensation
10. A lime stone column that hangs down from the roof of the cave is
A. Pillar
B. stalagmite
C. stalactite
D. scree
11. Which of the following is the main agent of both physical and chemical weathering?
A. Frost action
B. Temperature change
C. rain action
D. plant and animal action
12. Which one of the following is the second most abundant gas in the atmosphere?
A. Nitrogen
B. Oxygen
C. carbon dioxide
D. Argon
13. Which atmospheric layer has high concentration of ozone?
A. Mesosphere
B. Troposphere
C. Thermosphere
D. Stratosphere
14. Which one of the following is not the major element of weather & climate?
A. Altitude
B. Temperature
C. Air pressure
D. Rain fall
15. The transfer of heat through molecular contacts within and between bodies is referred to as
A. Convection
B. radiation
C. Conduction
D. transpiration

16. When does the overhead sun occur at the tropic of Capricorn?
 A. June 21st B. September 23 C. March 21st D. December 21st
17. The maximum and minimum temperature of a day are 10⁰C and -2⁰C respectively. What is the diurnal range of temperature?
 A. 6⁰C B. 12⁰C C. -12⁰C D. -6⁰C
18. Which of the following is material cultural?
 A. Values B. Language C. Beliefs D. Clothing
19. Identify the language that belongs to the Nilo sharan language family.
 A. Agewigna B. Agnuak C. Ge'ez D. Sidamigna
20. The increasing of interconnection among individuals across nations & their people is referred to as
 A. Globalization C. colonialism
 B. global warming D. communication
21. Which land feature is formed by the uplift of land between two parallel faults?
 A. Rift valley B. Fold mountain C. Block mountain D. Anticline
22. Flod mountains are usually formed from
 A. Metamorphic rock C. Sedimentary rock
 B. Igneous rock D. Magma
23. Which agro climatic zone is found largely lowland area with warm to hot semi-arid climate?
 A. Beraha B. Woina Dega C. Dega D. Qolla
24. The point on the earths surface immediately above the focus of an earth quake is
 A. Epicenter B. scree C. caldera D. crater

25. The amount of goods that sellers are willing and able to sell is termed as:
- A. Demand
B. equilibrium price
C. supply
D. consumption
26. Which of the following is the coldest atmosphere layer?
- A. Troposphere
B. Mesosphere
C. Thermosphere
D. stratosphere
27. Which type of rainfall is mostly common in Ethiopia?
- A. Cyclonic rainfall
B. Oro graphic rainfall
C. Convectional rainfall
D. Frontal rainfall
28. The elongated fractures of cracks on the slopes of a volcano is referred to as:
- A. Vent
B. fissures
C. magma
D. lava
29. Of the following one is rare gas in the atmosphere?
- A. Carbon dioxide
B. Nitrogen
C. Carbon dioxide
D. Argon
30. The importing of foreign goods for re-exporting to another countries is known as:
- A. Export trade
B. international trade
C. external trade
D. Entrepôt trade
31. If the layers of the rock bend down ward, it is called
- A. Monocline
B. syncline
C. anticline
D. stalactite
32. Extinct volcano is found in:
- A. Dubbahu
B. Tetali
C. Dubbi
D. Mt Batu
33. The following are the major factor that affect wildlife except:
- A. Overgrazing
B. deforestation
C. Illegal hunting
D. Afforestation

34. Which one of the following is NOT the benefit of water conservation?
- A. Reduces political conflict
 - B. Increases mineral depletion
 - C. Helps to preserve our environment
 - D. Builds safe & beautiful communities
35. Which soil conservation method involves the planting of two or more crops in the same field?
- A. Shelterbelt
 - B. Strip cultivation
 - C. Crop rotation
 - D. Terracing
36. Which one of the following is the result of unwise utilization of natural resources?
- A. Extinction of species
 - B. Depletion of minerals
 - C. loss of forest cover
 - D. All of the above
37. A careful, efficient, wise use & sustainable use of natural resources is termed as:
- A. Conservation
 - B. Explosion
 - C. consumption
 - D. Saving
38. Which one of the following does Not belong to volcanic eruption?
- A. Vent
 - B. fissure
 - C. focus
 - D. caldera
39. The instrument used to measure wind speed is
- A. Baro meter
 - B. Anemometer
 - C. wind vane
 - D. thermometer
40. The sun's rays always strike
- A. At no angle
 - B. At 18 hours each day
 - B. at nearly 90° angle
 - D. no more than 8 hours each day

41. Almost all of the energy reaching the earth from the sun is the form of _____
- A. Gamma rays
B. Electromagnetic radiation
C. atomic particles
D. ultraviolet rays
42. Deserts have cold nights because of
- A. Vegetation cover
B. Clear sky
C. snow cover
D. cloud cover
43. Which one of the following is not fold mountain
- A. Himalayas
B. Ras dashen
C. Cap ranges
D. Rockies
44. Batholiths are:
- A. Fold mountains
B. Dissected mountains
C. Igneous rock structure
D. plateaus
45. The coldest layer of atmosphere is
- A. Thermosphere
B. Strata sphere
C. troposphere
D. mesosphere
46. Which one of the following is biotic factor
- A. Sunlight
B. soil
C. air
D. decomposers
47. The service sector of human economic activities is designated as
- A. Quaternary
B. primary
C. secondary
D. Tertiary
48. When stalactite and stalagmite converge at a point, the resulting land feature is referred to as
- A. Pillar
B. margin
C. edge
D. ridge
49. In which component of the earth's environment the full process of weather condition takes place
- A. Atmosphere
B. Lithosphere
C. Hydrosphere
D. Biosphere

50. The economic sector changes raw materials in to finished products is termed as:
- A. Agriculture
 - B. Transportation
 - C. Manufacturing
 - D. service giving
51. Which one of the following is Not major language in Ethiopia?
- A. Cushitic
 - B. Khoisan
 - C. Omotic
 - D. Semitic
52. Which atmospheric layer is useful for communication by reflecting radio waves?
- A. troposphere
 - B. Mesosphere
 - C. Ionosphere
 - D. Exosphere
53. which one of the following is NOT primary economic activity?
- A. Mining
 - B. Agriculture
 - C. fishing
 - D. Construction
54. An internal force that links to lava emission on the earth's surface is called
- A. Folding
 - B. earth quake
 - C. faulting
 - D. volcanism
55. The following are benefits of government revenue & tax except:
- A. Ensuring economic stability
 - B. Reduction in regional imbalances
 - C. encouragement of export
 - D. reducing employment opportunity
