Match the pictures to the correct step in the story. Drag the correct sentence to the correct picture:

There were no lights, no internet, and no working traffic signals.

The government explained it was a technical problem in the electric network between Portugal and Spain.

People looked confused

People used their phones to find out what was going on. Some students couldn't finish their online classes.

Everything went back to normal, but people remembered the day the lights went out

Workers fixed the problem and electricity slowly returned to cities.
