(i) from 2015 to 2017

(ii) from 2017 to 2019

LIVEWORKSHEETS

(c) Suggest two ways to prevent elephants from facing extinction.

_____

_____

***Suggested answer***

*Preservation means keeping animals and plants in their original and balanced state. Conservation means returning animals and plants to their natural conditions.*

*The number of elephants decreased because of illegal hunting*

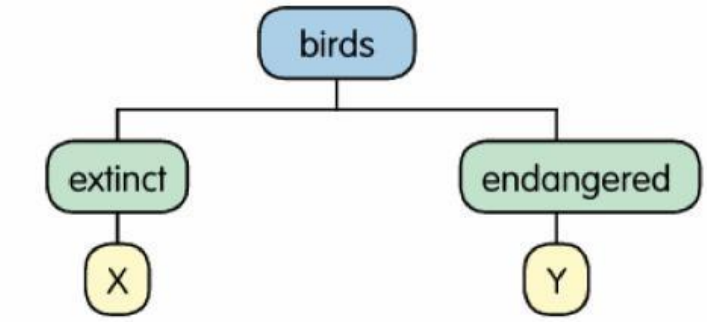

*The number of elephants decreased from 2015 to 2017 and increased from 2017 to 2019.*

*The number of elephants increased because they are undergoing conservation process.*

*Gazetting forest X as a forest reserve*

Enforcing a stricter law to protect the elephants from facing a threat of extinction.
