The Riachuelo River - Learning Activity

1. Reading Text

The Riachuelo is	a river in	Buenos A	ires, Argen	tina. It is	s small a	and not v	ery long.	Many peop	ole live n	ear the
river										

In the past, the Riachuelo was clean; people used the water for fishing and washing. Today, the water is dirty. Factories and houses put trash and dirty water into the river.

Now, the government wants to clean the Riachuelo. Some people help; they teach others to take care of the river.

We can help too! We should not throw trash in the street. We should recycle and use less plastic.

The Riachuelo is part of our city. Let's protect it!

•	-				_
