# Listening Practice 3.2

Listen carefully to the audio recording. You will hear a monologue related to a real-life pharmaceutical context. After listening, answer all 7 multiple-choice questions (MCQs) based on what you heard.

🔊

1. What is the main goal of antibiotic stewardship?

- A. Reduce patient visits to clinics
- B. Ensure appropriate use of antibiotics to combat resistance
- C. Encourage over-the-counter antibiotic use

2. According to the podcast, antibiotics should be avoided in which condition?

- A. Bacterial pneumonia
- B. Uncomplicated urinary tract infections
- C. Common cold

3. What is one recent guideline update related to antibiotic duration?

- A. Extend all courses to 14 days
- B. Use antibiotics until symptoms stop
- C. Shorter courses may be effective for certain conditions

4. Which type of antibiotics should be prioritized, according to the latest guidelines?

- A. Broad-spectrum antibiotics
- B. Narrow-spectrum antibiotics
- C. Intravenous antibiotics only

5. What should pharmacists do before dispensing antibiotics?

- A. Ask about symptoms only
- B. Confirm allergies and previous use
- C. Recommend doubling the dose

6. What are antibiograms used for?

- A. Measuring blood pressure
- B. Monitoring kidney function
- C. Guiding empiric antibiotic selection

7. Why should patients be told not to save or share leftover antibiotics?

- A. It's illegal
- B. It encourages antibiotic resistance and misuse
- C. They might forget the dose
