🧠✨ Cleft Sentences (Emphasis in Turing's Legacy)

🎯 *Cleft sentences help us emphasize key information. Let's highlight the brilliance of Alan Turing and the drama of his story using this structure!*

🖍️ Exercise 1: Rewrite with Emphasis

Instructions: Rewrite the sentences using cleft structures (with "It was..." or "What...") to emphasize the underlined information.

1. *Alan Turing* cracked the Enigma code during WWII.
   _____
2. He wrote *"The Imitation Game"* to explore machine intelligence.
   _____
3. Turing was *prosecuted* for his homosexuality.
   _____
4. *The Bombe machine* helped shorten the war.
   _____
5. He *died in 1954* under tragic circumstances.
   _____
6. *Benedict Cumberbatch* played Turing in the film.
   _____
7. They based the film on *his biography*.
   _____
8. *His theories* laid the foundation for modern computing.
   _____
9. The British government *apologized* in 2009.
   _____
10. *The way he thought* was what made him different.
    _____
